SAFA Funcadia

TUESDAY, 29 NOVEMBER 2022 AT 18:30

Conferencia de difusión del proyecto erasmus+ siac

Salesianos Huelva

- Agenda of the events

  1. Welcome and presentation of Inercia Digital.

  2. Presentation of SIAC project and Cyberbullying.

  3. Project implementation activities.

  4. Project results and resources.

  5. Conclusions.

Short description of the activities

On 29th November Inercia Digital carried out two events for the dissemination of the project results.

First event description:

It took place on 29th November in the morning in a School named SAFA Funcadia and the attendees were students, teachers and spicologies from the schools in total 17 participants. The events consisted in a presentation of the project and its results and an introduction to

cyberbullying and a debate with the assistant about the phenomenon of cyberbullying and consequences. Also we have the opportunity to present some information about the research and the course developed for all the public.

Second event description:

It took place on 29th November in the afternoon in a School named Colegio Salesiano "Cristo Sacerdote" and the attendees were teachers and other professionals from the

schools and other organisations in total 18 participants. The events consisted in a presentation of Inercia Digital, the project and its results and an introduction to cyberbullying. Also we did a demonstration about how to register for the course developed and where assistants can download all the resources like de manuals and the ebooks.

Feedback from the events

The participants were involved in evaluation forms about the project and the event in which the answers were positive. The evaluation of the event and the intellectual output in base of the questionnaire show as the following results:

- This question is about the satisfaction regarding the event and the colors are the following:
  Blue: very satisfied

  Red: Satisfied

  Yellow: Moderately satisfied

  Green: Fairly dissatisfied

  Purple: Not at all satisfied

En general, ¿cuál es su grado de satisfacción?

Some of the comments regarding the strengths of the event were:

- The possibility of accessing an interesting and necessary training programme.
- Importance of the subject matter.
- Good and concrete information.
- Shared resources.
- Ability to synthesise.
- Strong point, the topic of cyberbullying.
- Knowledge of the topic on the part of the speaker.

Some aspects to be improved by the attendees were:

- More practical elements.
- More interaction.
- Explaining with more details the phenomenon of Cyberbullying.

Post- Conference actions

Some promotional posts were made through different platforms.

El ciberacoso a jóvenes vulnerables es una realidad y una preocupación creciente en todos los países europeos. Los recientes acontecimientos y la **gran dependencia de Internet** provocada por la pandemia del COVID-19 ponen de manifiesto la necesidad de dar una respuesta urgente que permita tanto a los jóvenes como a los trabajadores juveniles **prevenir el ciberacoso y promover un uso seguro de internet.**

El proyecto Erasmus+ SIAC ha trabajado a lo largo de dos años con el fin de **concienciar a la sociedad** y apoyar a todas las personas que trabajan con jóvenes que están en **riesgo de ciberacoso** a través del desarrollo y divulgación de diferentes **recursos sobre cyberbullying**.

En el mes de noviembre el proyecto llega a su fin y por ello a lo largo de este mes hemos llevado a cabo diferentes actividades con el objetivo de **difundir todos los recursos desarrollados y disponibles** para que todos los profesionales puedan tener un punto de apoyo a la hora de trabajar con los jóvenes.
