## **ERASMUS + KA2 STRATEGIC PARTNERSHIP IN THE FIELD OF YOUTH**

### **Promoting a Safe Internet Usage Against Cyberbullying (SIAC)**

**Project number: 2020-2-UK01-KA205-079438**

**SIAC Multiplier event - Bari, Italy**

**30/11/2022**

**Prepared by: EUROSUD**

## Introduction

**The name of host organization:** EUROSUD

**The multiplier event number (according with the application form it will be):** E2 for Italy

**Data:** 30/11/2022

**Place:** Casa delle Donne del Mediterraneo

**No. of participants:** 32

### Dissemination tools

In order to get as many participants as possible to this event, several dissemination actions took place in the days leading up to the event.

- EUROSUD contact with local associations in order to inform about the project and the event
- Instagram stories
- Newsletter
- Direct contact.

On Wednesdays, November 30th at 18:00 pm at CASA DELLE DONNE DEL MEDITARRANEO we held the multiplier event for the educational project SafeInternetAgainstCyberbullyingSIAC.

The initiative was organized by Agedo Puglia thanks to the partnership and proposal of EUROSUD. After greetings from the responsible of the venue, we presented the speakers and we started slowly focusing on the topic.

This multiplier event was part of different dissemination events in Bari and close by cities with the goal to disseminate all the resources developed and available to young people and professionals could support working with youth at risk of cyberbullying.

EUROSUD President Adriano Difronzo, explained the result of the Erasmus+ project, its

genesis as a high-level European project, developments and how the results and outcomes could be used in community for local realities dealing with bullying and similar phenomena. Moreover, Mr. Difrozo demonstrated how the online platform developed during the project works. In particular, he made a live simulation and explained in detailed all five modules and their structure. Finally, he showed a certificate that participant get after the completion of the course.

Surely it was an afternoon dedicated to topics such as bullying, cyberbullying, respect for human rights. In the same context, the Anti-Discrimination Centre was inaugurated.

At the event were present the Municipality Councilor for Welfare Ms Francesca Bottalico Welfare who presented the first public anti-discrimination centre opened in Bari by the Welfare Department winner of a UNAR tender and the collaboration of the LGBT associations of the technical tables of the Municipality.

Agedo has been an active part in this planning. For years, the association of parents, relatives and friends of LGBT people has been working as a listening desk for LGBT parents and children at the Mediterranean Women's House.

With the new Centre, a psychologist, a university professor, a pediatrician and a jurist will participate with their active consultancy in carrying out training cycles in schools and at local health authorities aimed at parents, teachers, pediatricians, doctors, social and health workers.

EtsCasadelleDonnedelMediterraneo2022 a place that has been a symbol for years of women's commitment to the enhancement of the territory in favor of young migrant women.

The multiplier event was attended by more than 30 participants, half of them were 20-45 age group, with educators, youth workers, students and other participants simply interested in the topic.

Added value of the multiplier event was that some of the participants that enrolled the online course we present and in this way they could explain in the first place some of the project results.

The initiative concluded with an informal moment with some typical products from the region Puglia, sustainable products km 0 and the use of aromatic plant. This was also a fruitful closing parenthesis for networking among users interested in the SIAC results and outcomes, other Erasmus+ programs and in sharing ideas and proposals.

Worth to mention that before the multiplier event itself as EUROSUD organization we already started promoting the project results in other different occasions and locations such as:

A public meeting on bullying and cyber bullying held on Sunday, Nov. 20, inside the "G. Colonna" municipal library located in Piazza di Vagno Santeramo city

<https://bit.ly/3FhQBi9>

As well as we took part in the activities 'DICIAMO NO AL BULLISMO' (We say NO to bullying).) The educational project in network between the municipalities of Capurso, Casamassima and Triggiano with Ass. Futuro@forense and the schools IC "Bosco-Venisti" of Capurso, 1 C. D. "Marconi" of Casamassima, Licei "Cartesio" of Triggiano, to shout, "We say NO to cyberbullying!" Activities started back in September.

## Evaluation report

The SIAC Multiplier event was an opportunity for the project to publicly present its values and competences. All participants present enjoyed the event.

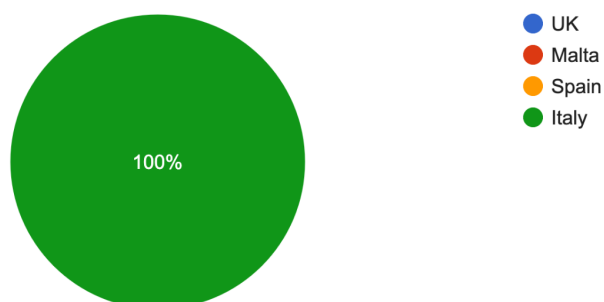

### Sex

32 responses

Initially there were 32 participants, evenly split by gender. The average age of the participants ranged between 25-29 and 40-46 years. In addition, all members were from Italy.

Country  
32 responses

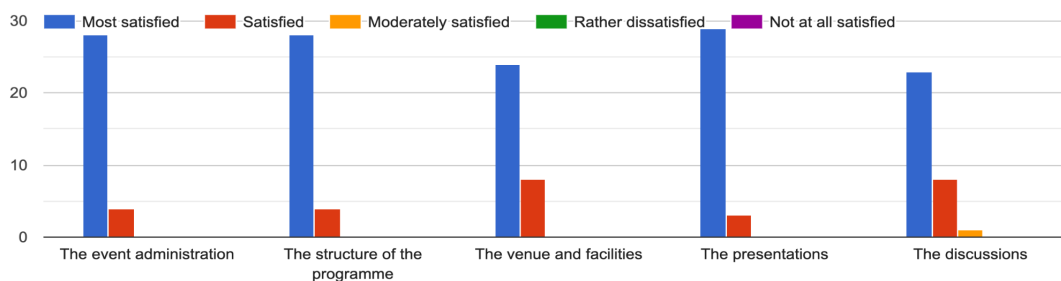

One of the main findings of the survey was that half of the participants had never participated in a similar event before. In addition, the SIAC project may be pleased to know that for some participants this was the first event.

## Organization of the meeting

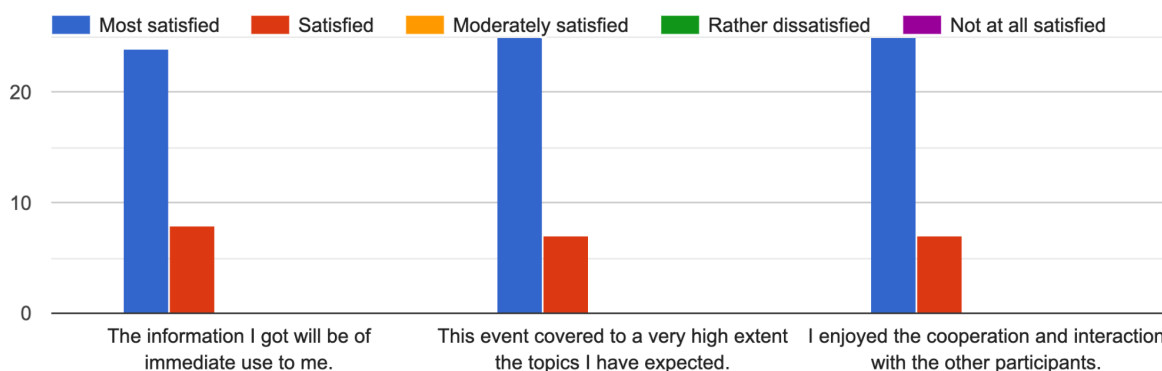

The meeting was generally well organised and managed. Furthermore, the venue and facilities were appropriate, as were the presentations and discussions. The concept of the event was likeable and the balance between speakers (private and public sector) and the live demonstration of the e-course was much appreciated. Overall, all participants would like to give a thumbs up for the management of the EUROSUD organisation.

Overall, how satisfied were you with:

## Output from the event

Please indicate your agreement with the following statements by ticking the appropriate number:

The main benefit is that the event covered the topics expected by the participants, and it should be added that the participants enjoyed the work and the interaction. For instance, the event was friendly and contained a lot of useful information for youth workers and practitioners, as well as the presentation of an e-course that can be applied in different contexts. As a follow-up, recent events in the Puglia region regarding cyberbullying are crucial to raise awareness about the importance of this issue. During the event, concrete tools to prevent this phenomenon were presented. On the other hand, the dedicated work on social inclusion has forced and helped to open the first public anti-discrimination centre in Puglia, which sits in 4 locations in Bari. The survey shows that the participants appreciated the participation of a political representative who pays particular attention to this topic.

### General comments and suggestions

A total of 32 participants took part in the event in Bari. Taking into account everyone's comments, the highlights of the event were the interesting topic, the variety of speakers and the interesting presentations. On the other hand, several participants mentioned that it would

Co-funded by the  
Erasmus+ Programme  
of the European Union

be useful to organize this kind of event for a larger number of people, more round tables to promote discussions and it would be equally interesting to organize this kind of event in schools and with parents.

In conclusion, the participants were deeply satisfied with the SIAC Multiplier event. The venue was beautiful and the host organization did a wonderful job. Wish more events like this.

LA RETE ISTITUZIONI E AVVOCATI NEGLI ISTITUTI DI CASAMASSIMA, TRIGGIANO E CAPURSO

## Un progetto contro il cyberbullismo da settembre nelle scuole di 3 comuni

Una rete di scuole, istituzioni e avvocati per dire no al cyberbullismo. E' il progetto appena approvato dal Miur che finanzia, per 10mila euro, un'iniziativa promossa dai Comuni di Capurso, Casamassima e Triggiano insieme agli istituti scolastici Marconi, San Giovanni Bosco-Venisti e Cartesio, e all'associazione Futuro Forense. Da settembre, il progetto si svilupperà in due filoni. Uno a carattere informativo, si sostanzierà in un ciclo di incontri che si terranno nelle scuole, nel

corso dei quali i legali dell'associazione parleranno a studenti e famiglie dei rischi e delle conseguenze legali a un uso improprio di dispositivi connessi al web, con particolare riferimento, alle possibilità che le vittime hanno per mettersi in salvo dai cyberbulli. Un secondo filone del progetto, invece, punterà alla realizzazione di tre video, che verranno poi pubblicati anche sui social, che vedranno protagonisti i ragazzi. Un video per ognuno degli istituti con il fine di sensibilizzare i ragazzi ma an-

che per lanciare loro un messaggio di speranza.

«Lo smartphone è una finestra sul mondo – esordisce il dirigente scolastico della Marconi di Casamassima, Francesco Damiani – ed è l'oggetto dei desideri di piccoli e grandi. I ragazzi lo richiedono per accedere a tutte le piattaforme che consentono loro di entrare in contatto con amici, vecchi e nuovi, e i genitori sono felici di regalarli perché pensano di avere così uno strumento di controllo, ma non è sempre così». Il rischio è quello che i ragazzi rimangano

invischiati in vicende che portano ripercussioni negative, come spiega il dirigente: «Per questo ci è sembrato necessario metterci insieme per aiutare gli alunni e le loro famiglie a capirne di più».

Convinta l'adesione anche delle amministrazioni locali, come evidenzia il sindaco di Casamassima, Giuseppe Nitti: «E' compito delle scuole e delle istituzioni partecipare alla formazione dei più giovani, soprattutto insegnando loro a rispettare gli altri e a rifiutare la violenza».
